In recent years we have baptized about 100 each year.

There is only one Missionary for every 100,000 people in our field. Figuring all Chinese workers we have one for about every 15,000 people in the field.

We have only one Doctor for the six counties, or for all the 2,220,000 people.

There is only one Christian high school for the six counties or for all the 2,220,000 people.

Missionaries to be effective must have a place to live and a place to work. There is urgent need for many thousands of dollars to supply all the Missionaries now on the field with homes in which to live; and chapels, school buildings, and a hospital for places to work. The workers are calling for more Evangelistic, Educational and Medical recruits to help in the building of the kingdom in our part of China.

"I am the bread of life."—John 6:35.

"Give ye them to eat."—Matt. 14:16.
